**Introducing a unique new concept
in parish software—a single-source, end-to-end
solution for the Parish Management System.**

Introducing PARISH COMPUTER SYSTEM!

The **#1** Choice for Parish Management Operations and Communication.

Parish Computer System is an Integrated, Comprehensive Catholic Parish Management Software Solution designed to meet the needs of every diocese, parish, and catholic school. PCS brings all ministries together and connects the parish office to all parishioners. It is a complete end-to-end parish management software solution that combines integrated front and back office programs with the power of the Internet.

It enables easy management of reports, emails, volunteer tracking, education, photo scanning, security levels, medical information, classes, donations, ministries, facilities scheduling, calendars, with a point-and-click interface that makes it simple and straight forward to use.

The modules of PCS are all linked to a central database in your office making it highly effective in processing critical information of your parishioners, students, and their families. By utilizing PCS, you can access needed information in your office or while you are away in a matter of seconds!

With these solutions, you are able to manage your entire parish and school operations from Census & Education Program, to Stewardship Tracking, Ministries Schedule, Facility Schedule, Credit Card Donation Processing, Email Communicator, Diocesan Interface Accounting, and finance.

OMNIDATA developed the PCS system specifically for the Catholic Church and for over 10 years it has been successfully implemented in the Archdiocese of Los Angeles, Santa Barbara, and San Diego.

PCS utilizes the power of Microsoft Office to manage all parish activities.

The PCS solution keeps your parish data management centralized and highly functional in all the activities of the parish and school.

Unlock the power of technology for your Parish and your Parishioners. Let us put PCS into your parish and take advantage of the explosive opportunities offered by PARISH COMPUTER SYSTEM.
